Sent: 15:43 EST on 02-11-2020

Effective: 15:00 EST on 02-12-2020

Expires: 07:00 EST on 02-13-2020

Event: Winter Weather Advisory

Alert: ...WINTER WEATHER ADVISORY IN EFFECT FROM 4 PM WEDNESDAY TO 10 AM EST THURSDAY...

* WHAT...Mixed precipitation expected. Total snow accumulations of 2 to 5 inches and ice accumulations of up to one tenth of an inch.

* WHERE...Portions of northwest Pennsylvania and north central, northeast and northwest Ohio.

* WHEN...From 4 PM Wednesday to 10 AM EST Thursday.

* IMPACTS...Plan on slippery road conditions. The hazardous conditions could impact the morning or evening commute.

* ADDITIONAL DETAILS...Precipitation will likely start as snow late Wednesday afternoon and early evening and may be of moderate intensity at times in the evening. Then, a period of a wintry mix with freezing rain is then likely later in the evening and overnight. A change to all rain is possible south of I-76 and east of I-71. Icing accumulations will be focused from Mansfield to Akron and points south whereas the higher snowfall will be north of there.

Instructions: Slow down and use caution while traveling. The latest road conditions for the state you are calling from can be obtained by calling 5 1 1. The Pennsylvania Department of Transportation and Pennsylvania Turnpike Commission remind motorists to adjust speeds based on driving conditions as winter weather impacts Pennsylvania roadways. Visit www.511pa.com for the latest travel, roadway, and traffic conditions.

Target Area: **Ashtabula Lakeshore**

Forecast Office: NWS Cleveland (Northern Ohio)
