...WINTER WEATHER ADVISORY IN EFFECT FROM 4 PM WEDNESDAY TO 10 AM
EST THURSDAY...

- * WHAT...Mixed precipitation expected. Total snow accumulations of
2 to 5 inches and ice accumulations of up to one tenth of an
inch.
- * WHERE...Portions of northwest Pennsylvania and north central,
northeast and northwest Ohio.
- * WHEN...From 4 PM Wednesday to 10 AM EST Thursday.
- * IMPACTS...Plan on slippery road conditions. The hazardous
conditions could impact the morning or evening commute.
- * ADDITIONAL DETAILS...Precipitation will likely start as snow
late Wednesday afternoon and early evening and may be of
Moderate intensity at times in the evening. Then, a period of a
Wintry mix with freezing rain is then likely later in the
Evening and overnight. A change to all rain is possible south of
I-76 and east of I-71. Icing accumulations will be focused from
Mansfield to Akron and points south whereas the higher snowfall
will be north of there.

PRECAUTIONARY/PREPAREDNESS ACTIONS...

Slow down and use caution while traveling.

The latest road conditions for the state you are calling from can
be obtained by calling 5 1 1.

The Pennsylvania Department of Transportation and Pennsylvania
Turnpike Commission remind motorists to adjust speeds based on
driving conditions as winter weather impacts Pennsylvania
roadways. Visit www.511pa.com for the latest travel, roadway, and
traffic conditions.
