Public Meeting to Discuss American Landfill Disposal Well Draft Permit

Information Session and Public Hearing Scheduled Nov. 29

Ohio EPA will hold a public meeting on Nov. 29, 2022, to discuss a draft permit to drill a Class I non-hazardous injection disposal well at the American Landfill, Inc. facility in Stark County.

An information session will begin at 6 p.m. on Nov. 29 at the Indian Run Christian Church, 8368 Church Street, SE, East Canton, immediately followed by a hearing to accept public comments on the draft permit to drill.

The draft permit proposes to allow American Landfill, Inc. to construct a Class I non-hazardous waste injection well on the company's Waynesburg landfill property. This draft permit to drill would not authorize American Landfill to dispose of wastewater in the well, which would require an additional application for a Class I permit to operate from Ohio EPA.

Anyone may submit comments or request to be on the mailing list for information. To comment or receive information on the permit, write to: Ohio EPA, Division of Drinking and Ground Waters, Attn: UIC Section Supervisor, P.O. Box 1049, Columbus, Ohio 43216-1049, or email ddagw_comments@epa.ohio.gov. All comments received at the hearing or by the close of business on Dec. 13 will be considered by Ohio EPA before a final action is taken on this proposal. To request a reasonable accommodation due to a disability, visit: epa.ohio.gov/ada.
