ELECTRICITY AGGREGATION · PROGRAM UPDATE · OCTOBER 2026

Osnaburg Township's Electricity Aggregation Program Is Pausing

Osnaburg Township's Electricity Aggregation Program expires in December 2026. Current supplier offers are higher than the utility's own rate, so rather than lock residents into a more expensive contract, the program will pause until a better rate can be secured.

CURRENT OHIO POWER RATE

10.19¢ per kWh

SUPPLIER OFFERS RECEIVED

Above 10.19¢

Not in residents' best interest to lock in

Why we're pausing

Our team works with supplier partners and surveys the market constantly to find the lowest price. Today's offers simply can't beat the utility rate.

What it means for you

Participating residents will temporarily return to Ohio Power's standard utility rate. **No action is required on your part.**

What happens next

We're checking pricing daily and will secure a new rate as soon as market conditions allow. We'll be in touch as soon as possible.

A proven approach. We have paused aggregation programs before to let markets settle, and it has served residents well.
